Education

Higher National School of Computer Science (ESI)

Sep 2025 – Present Algiers, Algeria

Higher School of Computer Science(ESI) 8-May-1945

Sep 2023 – June 2025 Sidi Bel Abess, Algeria

Baccalaureate (Scientific Stream), Khadidja Ben Rouissi

Graduated: July 2023 Medea, Algeria

Experiences

2023 - 2024 | GDG - SBA | Multi media Member

- Designed posts and templates for social media.
- Assisted in editing short videos.
- Worked with the team to improve design ideas.

2024 - 2025 | GDG - SBA | Leader of Multimedia Dep

- Planned visual content for events.
- Assigned tasks and followed progress.
- Helped members with design tools.

2025 - present | Aiqc – AI Research & Learning Community | Member

- Completed multiple AI/data mini-projects and Kaggle challenges.
- Worked with real datasets and explored data analysis and ML techniques.
- Wrote technical reports on challenges encountered during AI projects.

Sep - 2026 | Intern – Algérie Télécom, Operational Directorate of Telecommunications, Médéa

- Studied the network and transmission infrastructure (BSS/OSS) across several departments
- Identified a data-centralization gap across 5 centers, managed manually via Word files and paper
- Designed the UI/UX and developed the front end for the proposed solution — a shared local data-management system

Technical Skills

Programming: Python, Java, JavaScript, C

Web & UI/UX: HTML, CSS, React, Figma, UI/UX Design

Data & AI: SQL, Data Analysis, Machine Learning, Deep learning

Tools: VS Code, Git/GitHub, Kaggle

Projects and Achivement

- **Developed and Designed** a personal portfolio website to showcase UI/ UX designs and web projects; highlighted responsive design and user-friendly navigation.
 - **App Academic Project — UI/UX + Front-End**
 - Created basic wireframes and UI screens.
 - Worked with team members to design user flow.
 - **AI & Data Projects — AIQ Community**
 - Participated in AI and data-focused mini-projects using real-world datasets.
 - Completed multiple Kaggle challenges and explored practical AI/data problems.
 - Produced technical reports on AI topics and research challenges.
